

Price List EMEA

Thermal imaging cameras

for Electrical / Mechanical applications

Release date to dealers: 1st of December, 2012
End users Validity date: 1st of January, 2013 till 30th of June, 2013
Revision Number: 16

** After product registration on www.flir.com*

Product Warranty

FLIR Systems warrants its products to be free from defects caused by faulty material or poor workmanship, for a period of fifteen (15) months after delivery. Additional warranties after product registration may apply. Please visit our website www.flir.com. To qualify for FLIR's 2-10 Limited Warranty, the Purchaser must fully register the Product directly with FLIR on-line WITHIN Sixty (60) DAYS of the date the Product was purchased by the first retail customer (the "Purchase Date").

NO PRODUCT IS WARRANTED TO BE MERCHANTABLE OR FIT FOR ANY PARTICULAR USE OR APPLICATION.

The warranty is void if the buyer damages the item due to misuse, abuse, modification, processing, or integration with other items. FLIR's maximum liability under this warranty is limited to the obligation to replace or, at its sole option, to credit Buyer's account up to the purchase price.

General Maintenance

Shipping cost not included. General Maintenance includes Calibration for one lens combination, additional lenses 330 Euro each. General Maintenance package offers a complete hi-tech 14 points inspection and calibration service;

- | | | |
|---|--|--|
| 1 Perform a complete operational check | 7 Verify and/or re-equalize as needed each temperature range for image uniformity | 11 Calibrate temperature ranges upto +1,500°C, when applicable |
| 2 Fusion calibration and laser alignment, when applicable | 8 Verify standard lens calibration (others or special engineered lenses, optional) | 12 Perform quality approved acceptance test procedure |
| 3 Verify all internal cable and PCB connections | 9 Verify ambient temperature compensation as needed | 13 Provide calibration label with next due date |
| 4 Clean viewfinder and check optics | 10 Re-calibration to ensure it meets factory specification | 14 Provide calibration certificate (optional, extended calibration certificate with measured values) |
| 5 Upgrade internal camera software to latest revisions | | |
| 6 Perform minor repairs | | |

Export Statement

These commodities are for commercial end use only. They may not be used in the design, development, production, or use of nuclear, chemical or biological weapons or missiles.

Delivery / Lead times

ITC - Training

ITC is the leading source of knowledge within infrared science and its applications. ITC is present in over 50 countries and has instructors that speak 22 native languages. We offer everything from short introduction courses to certification courses. Our Instructors are among the most knowledgeable in the industry.

Certification Courses

ITC certification courses prepare the candidate for a certification exam in compliance to national and/or international standards. A certificate is a written testimony of demonstrated competence by successfully fulfilling conditions and procedures showing compliance with requirements. In Level 1 courses Students will learn about the basics of infrared, how to operate the camera under different conditions and for various purposes, how to do an appropriate judgment of the measurement situation in the field and identify potential error sources and in Level 2 courses both deepen and broaden their knowledge about infrared physics, heat science, infrared measurement equipment and its application.

Part Number	Description	Duration	MSRP Int. Euro Euro zone	MSRP Int. Non Euro zone
ITC-CER-5109	ITC Cert. Course L1 - inclusive 10 pers.	5 days	€16,500	€14,400
ITC-CER-5101	ITC Cert. Course L1 - attendance, 1 pers.	5 days	€2,000	€1,500
ITC-CER-5105	ITC Cert. Course L1 - additional student to on site class - 1 person (applicable only for Non Euro Zone)	5 days	-	€1,000
ITC-CER-5209	ITC Cert. Course L2 - inclusive 10 pers.	5 days	€16,500	€16,000
ITC-CER-5201	ITC Cert. Course L2 - attendance, 1 pers.	5 days	€2,100	€2,000
ITC-CER-5205	ITC Cert. Course L2 - additional student to on site class - 1 person (applicable only for Non Euro Zone)	5 days	-	€1,000

Introduction Courses

These courses provide the students with the most important basics of IT Thermography theory and applications, camera operation and software usage. These courses are designed for beginners in Thermography who would like to get familiar with their camera and to learn about the basics of infrared and its applications

ITC-EXP-0511	ITC Getting started with Thermography - attendance 1 pers. (Only DE, FR, IT, NL, SE,)	4 hours	€190	-
ITC-EXP-0521	ITC Getting started with Thermography (evening or weekend) - attendance 1 pers. (Only DE, FR, IT, NL, SE,)	4 hours	€220	-
ITC-EXP-1019	Short course Introduction to thermography - inclusive 10 pers.	1 day	€3,000	€2,800
ITC-EXP-1011	Short course Introduction to thermography attendance 1 pers.	1 day	€345	€290
ITC-EXP-2049	Short course electrical thermography - inclusive 10 pers.	2 days	€5,900	€5,500
ITC-EXP-2041	Short course electrical thermography - attendance 1 pers.	2 days	€625	€575
ITC-PRA-2019	ITC Practical Course – Solar Panel Inspection – 10 pers.		€5,900	
ITC-PRA-2011	ITC Practical Course – Solar Panel Inspection – 1 per.		€625	
ITC-EXP-2069	ITC Short course HVAC and Plumbing - 10 pers.		€5,900	
ITC-EXP-2061	ITC Short course HVAC and Plumbing - 1 pers.		€625
